

SOUTH CAROLINA UNIVERSITIES  
RESEARCH & EDUCATION FOUNDATION  
1204 WHISKEY ROAD, SUITE F, AIKEN, SC 29803-4322

Ms. Huchet began employment with SCUREF in 2001, as a part time Systems Analyst based out of the Office of Special Program at the Medical University of South Carolina. At that time, she worked on educational programs related to the enhancement of nuclear science and engineering education in the United States. In 2003, Ms. Huchet was promoted to full-time Program Assistant and in just three additional years, she was promoted again to Program Manager. Ms. Huchet currently co-manages multiple SCUREF federal educational programs principally focused on nuclear security. This includes programs for the Office of Naval Reactors, the National Technical Nuclear Forensics Office and the National Nuclear Security Administration with the principal focus of enhance academic and university research programs in these areas. She is currently based at the University of South Carolina Aiken, Sponsored Research Charleston Office.

Over the years, Ms. Huchet has developed strong contacts in the nuclear laboratory and university communities, and is acquainted with the complexities of these communities. She has also fostered valuable working relationships with multiple sponsors at the Departments of Homeland Security; Energy; and Defense. These assets allow Ms. Huchet to help manage the SCUREF grants effectively and assist SCUREF in finding new grant opportunities.

Ms. Huchet has a B.A. degree in Anthropology and English from the University of North Carolina at Greensboro.
